REASONS FOR ALLOWANCE

Election/Restrictions

1. Claims 11-20 were cancelled in the Amendment filed on December 10, 2003.

Thus, previously restricted Claims 8-9 are now directed to an allowable product. Pursuant to the procedures set forth in the Official Gazette notice dated March 26, 1996 (1184 O.G. 86), claims 8-9, directed to the process of making or using the patentable product, previously withdrawn from consideration as a result of a restriction requirement, Claims 8-9 now subject to being rejoined. Claims 8-9 hereby rejoined and fully examined for patentability under 37 CFR 1.104.

Since all claims previously withdrawn from consideration under 37 CFR 1.142 have been rejoined, the restriction requirement made in Paper No. 4 is hereby withdrawn.

2. The following is an examiner's statement of reasons for allowance for Claims 1-10: the prior art does not disclose or suggest a device for taking a mould from a foot including a member having a planar surface, operating means provided on the opposite side of said member, said operating means providing means for inverting and everting the planar surface of the member while the planar surface is in contact with at least portion of the sole for inverting and everting the foot in combination with the remaining limitations of the claims. Furthermore, the applicant has shown that there is support in the originally filed specification that the terms "inverting" and "everting" should be limited to their medical definitions (applicant's originally filed specification, page 7 line 3 through page 8 line 25).

3. Any comments considered necessary by applicant must be submitted no later than the
